

Apple Creek

PRIVATE PRESCHOOL

Safety Measures in Place

- Only staff, children, and licensing personnel can enter the building.
- We take, record, and track the temperature of every staff and child.
- The staff taking temperatures and walking children to class wear a mask and gloves.
- Health policies are strictly enforced.
- Children use a sticker chart to track how many times a day that they wash their hands.
- Student to teacher ratios are lower than state requirements.
- We space children out during group activities and when lining up.
- We have enhanced our cleaning, sanitizing, and disinfecting procedures to follow CDC standards.
- Teachers clean and disinfect each room three times a day.
- We have removed all items from the classroom that are often shared but difficult to sanitize.
- Our janitorial service uses a hospital grade disinfectant.
- Our top priority is to keep your children safe and healthy!

Teachers use masks, gloves and hand sanitizers when getting children out of cars and to their classrooms.

Children (and staff) get their temperatures checked and recorded daily.

Daily Handwashing Sheets

Schedule for Enhanced Cleaning						
Room	Week of June 1-5, 2020
