

Parent Communication

Apple Creek Preschool uses a variety of methods to assess each individual child's progress throughout the school year. Children are assessed on an ongoing basis through observations and developmentally appropriate checklists. Data collected from these assessments is used to identify children's needs and special interests, develop individual goals, and to arrange for developmental screening referrals when necessary.

Parents will be informed of the results of these assessments on a regular basis (schedule below). Each child's assessment information is kept confidential and is only available to the Apple Creek staff that is responsible for the education and care of your child.

September	Welcome to School Note
